COME TO STAY.

Encouraging are the reports coming from the commercial agencies.

Wheat has advanced over 50 per cent. Cotton has had an encouraging advance. Nearly every week adds 25 cents or more per ton to the price of iron, and 10, 20, and even 30 per cent increase has come to the workmen's wages in some of our larger factories.

Treasury gold has got back to the \$1,000 000 point and over.

The railway earnings are creeping toward the 1892 figures, and, with increased demand for labor, and increased remuneration of labor, will come increased consumption of farm products, of the luxuries and comforts of life, and the output from the loom and workshop.

The improvement in business has been slow, but to all hopeful ones the hope is strong that it has come to stay, and no part of the country will reap greater benefits from the country's returned prosperity than the south. Let every one encourage his neighbor.—Florida Farmer and Fruit-Grower.

The above is one of the many evidences of the slow but sure increase of prosperity the country over, but more notably in the southern states; and barring the two great freezes, there is a decided tendency towards improvement in business in our own state.

A BIG SCHEME.

George H. Packwood, of Maitland, a heavy stockholder in the Jacksonville and Tampa Bay Improvement Railway company, says

his company will build an electric railroad from Jacksonville to Tampa, and work will begin in about a month.

This company was chartered by the last legislature, and was given a grant of 5,000 acres per mile. It is capitalized for \$2,000,000. A surveying corps will start from Jacksonville at once. Several power houses will be built along the route to furnish power for this long line—the longest electric railroad in this country. It is to be hoped, and is very probable, that Ocala will be taken in on the route.

This road will be a great scheme for Florida, and is by far the biggest undertaking in the state at present.

Editor EVENING STAR—Send us the ENENING STAR. We can't get along without reliable news from Marion county.

S. P. PASTON.
Trenton, Ky.

There will be a special excursion to Atlanta from Palatka and intermediate points Aug. 19, 1895, via the Georgia Southern and Florida railway, at \$4 for the round trip.

Judge Joseph Tillman, Quitman, Ga., who is getting up a book descriptive of the Plant system, made the STAR a pleasant call just as we were going to press.

To Trade.—A good improved Missouri farm, in southeast Missouri. The Ozark mountain section and home of the big red apple, for a Florida property. Owner lives in Florida. Enquire at this office.

Frank E. Bugbee, the mammoth furniture dealer, is in New York on important business, which very probably is connected with a big land scheme his father is engaged in out west.

Rev. J. C. Porter and family, who have been spending a week at Punta Gorda, returned today, highly delighted with thier trip. He was not altogether on a pleasure trip, as the State Baptist Convention met there, and they raised over \$600 to be applied towards liquidating the debts of the church.

Dr. R. B. Mitchell, the enterprising manager of the Post Office Drug Store, served free ice cream and soda to the boys of Marion Hose Company No. 1 and the Metropolitan Band, which furnished music for the delighted company. Dr. Mitchell is a thorough business man and a popular gentleman. He is making a good success with his business.

The section gang is hard at work preparing the road bed to lay the third rail from the old S. S. O. & G. depot to the Florida Southern depot up town. This will very soon be accomplished, and it will be a great convenience to the people, and will give that excellent road better facilities to accommodate the heavy traffic.
